

ASSEMBLY INSTRUCTIONS

 **WARNING:** To avoid serious personal injury:

- Carefully and strictly follow assembly instructions. Improper assembly of furniture can result in structural failure, instability of the product, or tip-over.
- Monitor and carefully control the assembly components. These include small parts and hardware that may present a choking hazard to small children. Bob's furniture should be assembled only by responsible adults and children should not be involved in the assembly process.
- Where provided, wall mounting hardware should always be used as prescribed in these instructions to anchor furniture to wall. Proper use of the wall mounting hardware can significantly reduce the potential for furniture tip-over and crushing injuries.

HARDWARE LIST				
PART #	QTY	SIZE / DESCRIPTION	USE IN	(Scaled reference) 0 10 20 30 40 50 60
M	9	M6x20	Mechanism to seat, backrest to support, headrest to backrest	
N	6	M6x30	Armrests to seat	
O	3	M8x20	Support to mechanism	
P	6	Ø8.5, Ø17, 1mm Metal washer	Armrests to seat	
Q	2	Plastic washer	Armrests to seat	

INCLUDED TOOLS			
1	M5 Allen wrench	Use in steps 1, 2, 3, 6 & 7	

BEFORE YOU START THE ASSEMBLY, PLEASE READ THE FOLLOWING TIPS AND WARNINGS.

- Do not discard this manual or any of the packaging material until the unit has been completely assembled.

- If during assembly you find an issue or need clarification, please contact our Customer Service for assistance. Please refer to the last pages on this manual.

- On each step read the instructions thoroughly and analyze the illustrations before proceeding to do the assembly.
- Follow the instructions step by step and do not skip any unless our Customer Service advises it is OK to do so.

- Make sure you understand which hardware will be used on each step. Using the wrong size of screw, bolt or pin might strip the threads or cause damage to the part in which it is being used.

- To avoid misalignments, always leave the screws loose and tighten them until all pieces are positioned correctly.

- Do not overtighten or force the screws as they might break, strip, damage the threads of the holes or get stuck inside the part.

- If the hole seems too small for the screw, make sure you are using the correct size of screw and/or that you are installing it in the correct hole.

ASSEMBLY STEPS

STEP 1

Hardware

N		6 Pcs
P		6 Pcs
Q		2 Pcs

M5

PLASTIC WASHERS
FOR INNERMOST
HOLES ONLY

Flip over the seat **B** and pull out the footrest to allow access to the side holes. Put the plastic washers **Q** over the **INNERMOST** holes, and assemble the armrests **G-L**, **G-R** in their respective sides with screws **N** and metal washers **P**.

PLEASE NOTE:

- The armrests lean forward towards the **FRONT** of the chair.
- The side (left or right) is defined with you sitting on the chair, not looking at it.

PULL OUT FOOTREST AND PLACE PLASTIC WASHERS

ASSEMBLE THE
ARMRESTS

STEP 2

Hardware

M		4 Pcs
---	---	----------

M5

Place the mechanism **D** with its tilt knob facing towards the **FRONT**, and assemble it with screws **M**.

STEP 3

Hardware

O		3 Pcs
---	---	----------

M5

Assemble the support **I** under the plate of the mechanism **D** with screws **O**. The screws go through the plate and into the holes of **I**.

STEP 4

Insert the casters **F** into each leg of the base **C** using pressure, then place the lift cylinder **E** in the middle of the base and cover it with **H**.

STEP 5

Join the base parts to the seat making sure the tip of the lift **E** enters correctly into the hole of the mechanism **D**.

STEP 6

Hardware

M  3 Pcs
M6x20

M5 

Flip the unit upright and assemble the backrest **A** to the support **I** with screws **M**.

STEP 7

Hardware

M  2 Pcs
M6x20

M5 

Assemble the headrest **J** to the backrest **A** with screws **M**.

STEP 8

Attach the backrest cover **K** to the support **I** and the headrest cover **L** to the headrest **J**.

CHAIR'S FUNCTIONS

- ① To raise or lower the chair's height, flip **DOWN** the handle on the lever that is under the seat on the right side. The chair goes down while sitting on it, or up if you lift your body.
- ② To recline the backrest to a specific angle, pull **OUT** the same lever, recline and then push **IN** the lever to lock at the desired angle. To return to the normal upright position, **UNLOCK** the lever, push back a little bit on the backrest, then pull yourself forward and lock the lever.
- ③ You can turn the tension knob at the front of the mechanism under the seat to make the reclining feel either easier or with more resistance according to your preference.
- ④ To use the footrest, pull it out from under the seat, and flip it **UP**. To close it while you are still sitting on the chair, flip it back **DOWN** and push it **IN** under the seat.
- ⚠ **WARNING:** **NEVER** try to get up from the chair while the footrest is **OUT**.
- ⑤ To adjust the armrest height, press the button that is on the outside of the armrest and release it once the desired height is reached.
- ⑥ For comfort, the headrest can be adjusted **UP** and **DOWN** or tilted forward/backwards.

WARNINGS

- Do not exceed the indicated weight limit.
- Do not stand up on the chair or use it as ladder.
- Only one person at a time can sit on the chair.
- Do not use the chair if parts are bent, damaged, or if screws are loose or missing.
- **NEVER** try to get up from the chair while the footrest is **OUT**.
- If small children are sitting on the chair, keep close observation on them.
- Do not allow small children to play with the chair.
- Not paying attention to these warnings could result in injuries.

WEIGHT LIMIT

**275
Lbs
(125 Kg)**

CARE AND MAINTENANCE

- To clean the chair it is recommended to use a soft cloth lightly damped in a solution of smooth soap and water, then dry with a clean towel.
- Do not use solvents or abrasive materials to clean any part of the chair.
- Before using a cleaning agent, test on a small hidden area of the chair, like underneath the seat.
- Do not expose the product to direct sunlight or to extreme environmental conditions.
- Inspect the chair completely every 4 months and make sure that all screws are tighten. Do not use if parts are bent, damaged, or if screws are loose or missing.
